PROJECT EXPERIENCE

University of Michigan

Search Engine

- Constructed an efficient search engine that behaved similar to Google in 2004.
- Utilized Hadoop's MapReduce source code to score a large set of documents based on various factors including term frequency, PageRank, and Inverse Document Frequency.

PROFESSIONAL EXPERIENCE

OnRoto Fantasy Sports

Summer 2016 – Summer 2017

Mobile Web Developer

- Converted the essential pages on a fantasy sport website into their mobile friendly versions.
- Replaced all existing Java functionality with JavaScript. With only a few browsers still supporting Java, it seemed incompatible to have some pages still rely on it.

Elite Lessons

Summer 2015

Web Developer / Web Designer

- Researched and practiced the necessary languages to make a functioning website for a startup company.
- Implemented a commerce section, which provided insight into important security exploits and their defenses on the modern day web
